

## **Bearing Conversion – John Deere to Timken**

(Notes by Duane Larson)

This bearing listing is taken from a Deere document dated March 1, 1955, so may not contain all bearings of interest in tractors built through 1960. That information is available in a 1968 document; however, that document does not include many of the bearings used in early tractors which is why I didn't use it here. That list is similar to the one published in the July-August 2007 issue of the Two-Cylinder Magazine.

The "Used by" column contains the codes for the factories which used the particular bearing. They are:

- A Plow Works, Moline, IL
- B Planter Works, Moline, IL
- C Spreader Works, East Moline, IL
- D Wagon Works, Moline, IL
- E Ottumwa Works, Ottumwa, IA
- F Syracuse Chilled Plow Works, Syracuse, NY
- H Harvester Works, East Moline, IL
- K Killefer Company, Los Angeles, CA
- M Van Brunt Company, Horicon, WI
- N Des Moines Works, Des Moines, IA
- R Waterloo Tractor Works, Waterloo, IA
- T Dubuque Tractor Works, Dubuque, IA
- W Welland Works, Welland, Ontario, Canada
- Y Yakima Works, Yakima, WA
- X All factories above
